

Number Lines | Model your thinking

Once you have modelled your thinking, create a context for the expression given. Share your problem in context and comments in the collaboration discussion board.

Model your thinking.

$$83+278$$

$$4.1 + 1.97$$

$$1000-237$$

$$\$7.20-\$3.85$$

Describe your strategy.

Reflection:

What did you notice while you were working?

What questions do you have for your Houston A+ Coach?
